Fibo | The company

# Fibo wall panels are the choice of professionals worldwide.

Proud to be recognised and awarded for our quality products, we are pleased to showcase a selection of longer lasting wall solutions that save you from time and money!

## The Fibo factory in Lyngdal

Fibo has produced panels in Lyngdal, Norway, since 1952. In 2007 a new factory was built and in 2017 it was extended and new production- and glueing lines was installed in a 15 million Euro investment.

This will increase Fibo's production capacity and reduce impact on the environment even more than before. A crucial choice to be a part of future sustainable growth.

The product

### Reasons why to choose Fibo

- Quick and easy to install
- Mount directly onto stud work, existing walls or on top of tiles
- Invisible joints with our unique Aqaalock System
- Low maintenance and easy to clean
- No grouting required

# Fibo Wall System

Great looking and longer lasting wall solutions  
that save you from time and money!

Design your walls using high quality wall panels from Fibo. The Fibo wall system makes the work involving plastering, membrane and tiles redundant. Combine panels from our different collections to suit you or your clients style.

Standard panels are sized 600mm x 2400mm and can be mounted directly onto stud work, existing walls or on top of tiles. The strong

laminate surface can withstand both direct water and large temperature fluctuations and panels are easy to clean, require very low maintenance and have a 15 year warranty.

Our unique Aqualock system ensures the panels are easy to install.

Find more information on [fibosystem.com](https://fibosystem.com).

The product

## Reasons why to choose Fibo

- Quick and easy to install
- Mount directly onto stud work, existing walls or on top of tiles
- Low maintenance and easy to clean
- No grouting required
- Our unique and patented Aqualock
- 15 year warranty

Fibo Wall panels are delivered with the Fibo Aqualock system. This makes the installation easy and gives a consistent and great result.
