Fibo Wall System

Great looking and longer lasting wall solutions
that save you from time and money!

Design your walls using high quality wall panels from Fibo. The Fibo wall system makes the work involving plastering, membrane and tiles redundant. Combine panels from our different collections to suit you or your clients style.

Standard panels are sized 600mm x 2400mm and can be mounted directly onto stud work, existing walls or on top of tiles. The strong

laminate surface can withstand both direct water and large temperature fluctuations and panels are easy to clean, require very low maintenance and have a 15 year warranty.

Our unique AquaLock system ensures the panels are easy to install.

For more information see fibosystem.com.

The product

Reasons why to choose Fibo

- Quick and easy to install
- Mount directly onto stud work, existing walls or on top of tiles
- Low maintenance and easy to clean
- No grouting required
- Invisible joints with our unique AquaLock System
- 15 year warranty

Fibo Wall panels are delivered with the Fibo AquaLock system. This makes the installation easy and gives a consistent and great result.

Design approval: D21569 No.00 + US.00
Patent approval: P24306 No.00 + US.00 + EP.00
Fire class D-s1,d0

Fibo The Fibo factory in Lyngdal

Fibo | Factory and head office

Fibo has produced panels in Lyngdal, Norway since 1952.

In 2007 a new factory was built and in 2017 it was extended and new production- and glueing lines was installed in a 15 million Euro investment.

This will increase Fibo's production capacity and reduce impact on the environment even more than before. A crucial choice to be a part of future sustainable growth.

Profile Assortment

All profiles are 2400 mm long

The aluminum strips are delivered pre-drilled, milled and individually packed.
