Wall Panel System

100 % WATERPROOF

Read more on www.fibosystemusa.com

Fibo | Design

We are passionate about creating the best possible Wall Solutions

Our wall systems are cost efficient, easy to install, easy to clean, durable and have minimal environmental impact. In our collections we unite the natural with the stylish. Feel free to choose from a range of different designs, colors and textures.

Fibo | Focus on innovation

From our very beginning, Fibo's focus on innovation has been our greatest driving force. Wet rooms leave little room for error. Even though you may only be sprucing up a small bathroom, it is reassuring to know that building contractors, public sector developers, and skilled tradespersons all choose Fibo.

Fibo | About Fibo

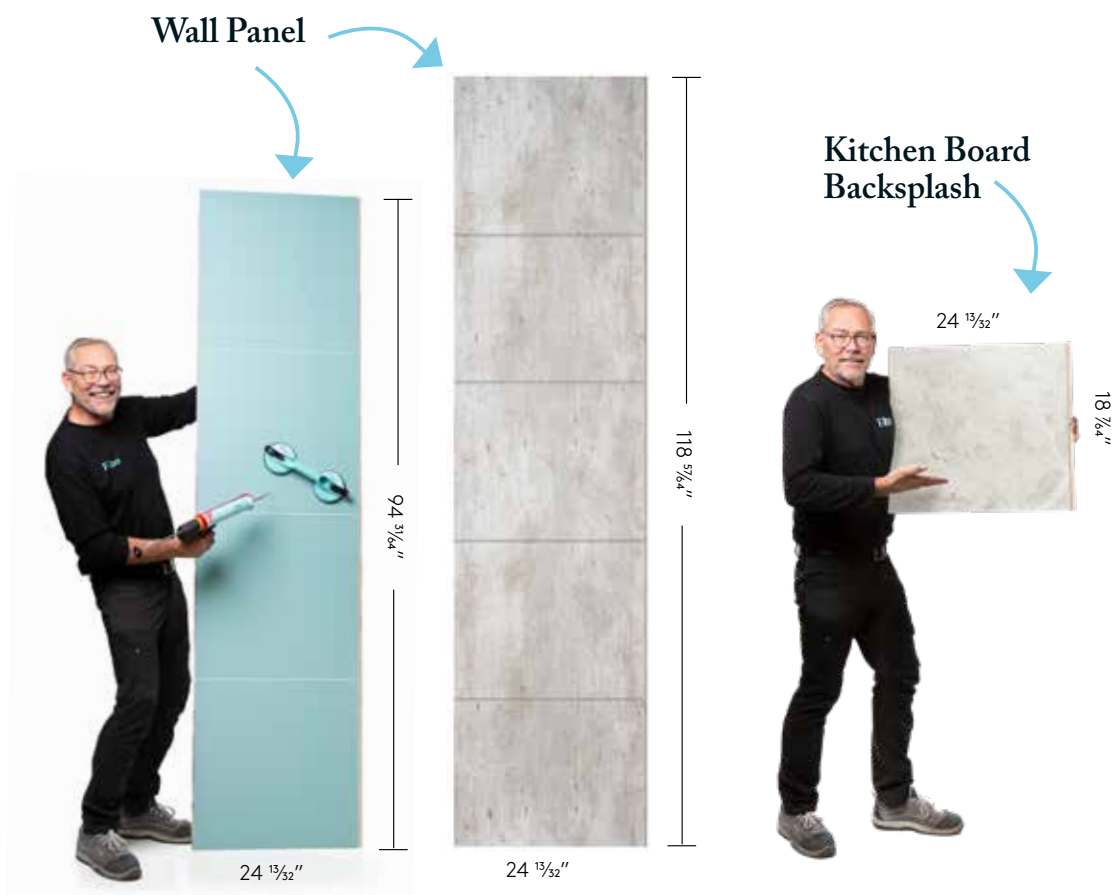

Build a quality bathroom with Wall Panels from FIBO

Fibo is engaged in ongoing product development and always endeavors to tailor its products to meet its customers' needs. Mix and match styles to suit your taste. Design and quality go hand in hand.

Our panels are compliant with Carb 93120 ATCM and TSCA Title VI for wet rooms and have been UL 723 fire tested and approved. No hassle with backer boards, vapor barriers or tiles. The panels can be screwed directly onto studs or existing walls. They are also easy to cut and adapt to your needs.

All panels use our unique Aqualock system and are easy to fit.

The smooth, strong surface is capable of withstanding direct water exposure and large temperature fluctuations, and the panels are easy to wipe down and keep clean. Just follow the simple fitting instructions, and you're guaranteed a wall that will last for years.

Fibo Marcato Collection 4943 S GREY CONCRETE M6030 / M688

Fibo | Sustainability

Our own sustainability goals

We believe that responsible and sustainable development is also a wise way to do business.

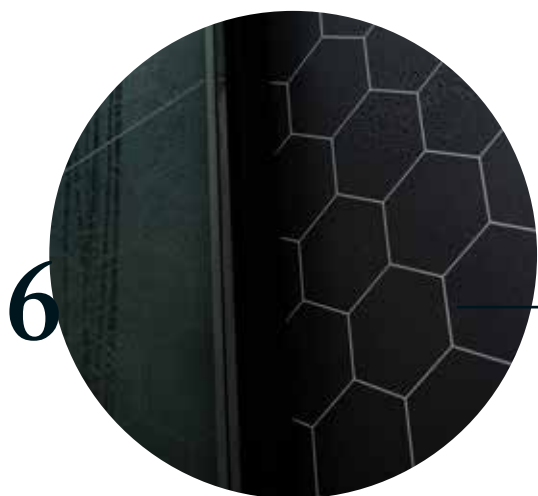

That's why we aim for the lowest possible emissions and are careful that our suppliers comply with strict requirements at all stages. In line with the goal of sustainable forest management, the wall panels are PEFC certified. A clear advantage of using wood products is the potential to store carbon during the products' lifetime and reduce carbon release to the atmosphere.

FIBO SYSTEM & ACCESSORIES: PAGES 42 - 43

What you need when installing the Fibo System

New Designs!

We introduce new, beautiful designs on a selection of contemporary decors. Create your unique style!

For both Wall Panel and Kitchen Board, we are launching new Terrasso colors with fish bone design, and two new dark decors, Dark Soot and Black, with hexagon design. In addition, we come with a new Subway Tile design in several current colors, and a design with vertical tiles (Standing Bars), in beautiful solid color Midnight Blue.

With these designs you can create a dynamic, trendy and stylish expression in your room.

All the new designs have a grout width of 0 ¼ inch. Information about colors and designs can be found in the collection overviews on page 36 - 45.

More stylish Wall Panel options

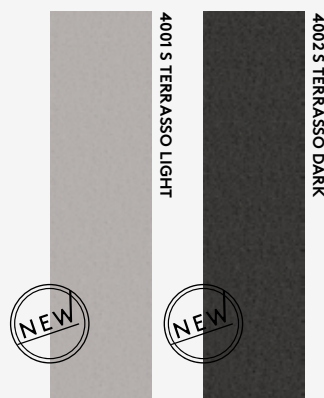

The Marcato collection is delivered in many varieties of patterns, surfaces and designs. Choose natural tones inspired by wood, earth and stone with different textures.

The grout width in the entire Marcato collection is only 0 5/64" and the grout color is either white, grey or dark Anthracite. All the options give you freedom to come up with different combinations to see which panels and designs that fit your need and expression. Remember that it may be wise to combine panels with equal grout colors!

TRENDY TERRASSO

The international terrasso-trend has reached our assortment as well, and it is a pleasure to be able to offer these delicate varieties in many beautiful designs. Why not combine large tiles with a herringbone patterned to break up and create a contrast wall in the same decor!

Fibo | Marcato Decor selection

Fibo | Collection: Marcato

Collection: Marcato

Marcato is our largest and most varied range. It includes wood textures and concrete surfaces as well as numerous other finishes. The Marcato collection also contains various effect panels for that extra touch.

More about these on page 18.

Our largest collection

Marcato comes in a wide range of patterns, surface textures and tile sizes. The grout line is $\frac{5}{64}$ " wide and available in either white, grey or Dark Anthracite. You can choose from natural color tones inspired by wood, earth and stone, all with different textures.

A modern bathroom interior featuring a wall of large, light-colored marble tiles with subtle veining. A dark, minimalist vanity unit with two horizontal drawers is mounted against the wall. On the vanity, there is a white rectangular sink, a black faucet, and some small decorative items including a yellow bottle and a wooden container. A large, rectangular mirror is mounted above the vanity. To the right of the vanity, a green, tiered trash bin is visible. In the background, a wooden chair is partially visible. The floor is a light, neutral color, and a small rug is partially visible in the foreground.

Fibo | Collection: Marcato

Modern marble

Marble is never out of style. These four fantastic marble decors, have patterns that add a modern touch to traditional marbles. We offer both panels without grout lines, or with large tile patterns.

Fibo | Collection: Crescendo

Collection: Crescendo

Create a relaxing atmosphere in your bathroom with Crescendo – the collection that we are most proud of: 100% three-dimensional panels!

Fibo Crescendo 1533 GRIS GRANDE

Fibo Crescendo 153 NEGRO GRANDE

Fibo Crescendo 1528 CASABLANCA ARTICO

Crescendo = unique!

The collection has a unique surface with a three-dimensional effect. Both panels and grout lines have an irregular surface, giving them a realistic, natural look.

Please note that Crescendo is specially designed to incorporate authentic-looking grout lines, and the grout line width may therefore vary by $\pm 0 \frac{5}{4}$ ". You should also know that Crescendo grout lines are not milled but are part of the panel design.

Fibo | Crescendo Decor selection

Fibo | Extra Matt and High Gloss Color Collection

Color Collection

Fibo is introducing brand new colors to add to our already varied Color Collection. With these decors it is easy for you to create harmony and atmosphere – either in a bathroom or a bedroom.

Fibo Color Collection EM 5233 LIGHT SAND

Fibo Color Collection HG 5230 SMOKEY BLUE M6060

Colors can liven up a room and make you happy

Renew your home with colors from the Color collection. We offer a range of vivid colors in a high gloss or extra matt finish, providing a large selection to choose from and numerous possible combinations.

The width of the grout line in the Colour Collection is 0 5/64". Panels with High gloss surface are with grey grout line. The Extra Matt panels comes with white grout line.

Fibo Color Collection HG 3091 DENVER WHITE M66

SOFT SOLID COLORS WITH AN EXTRA MATTE SURFACE

With their extra matt finish, these panels offer a fresh palette that can easily be combined with panels from other collections. Let your imagination fly – colors create happiness!

A white towel is draped over a white wall, partially covering a wooden cabinet. To the right of the cabinet, a small potted plant with green leaves is visible. The background is a plain white wall.

Fibo | Collection: Fortissimo

Collection: Fortissimo

The classical Fortissimo design is a classy choice that suits most homes.
Fortissimo is available in a variety of designs.

Many Fortissimo panels also come in longer lengths
to accommodate rooms with high ceilings. Read more on page 44.

Fibo Fortissimo 3091 HG DENVER WHITE F01

Fibo Fortissimo 3091 HG DENVER WHITE F05

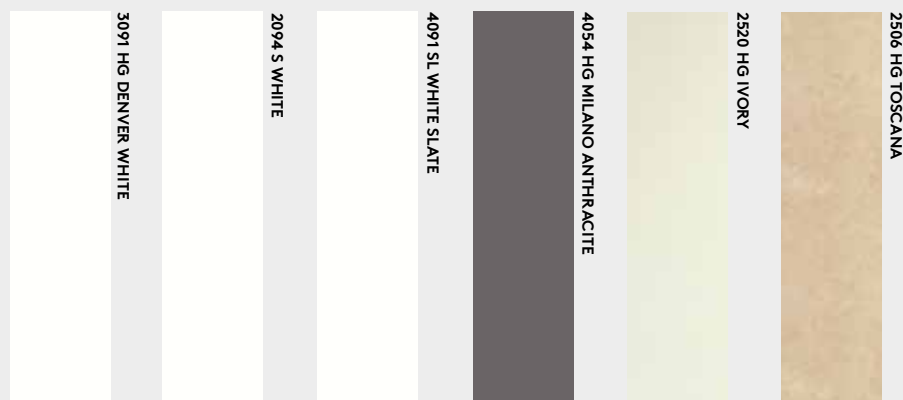

Fibo Fortissimo 2506 HG TOSCANA F00

Clean lines and classical designs

All the designs in the Fortissimo range have a smooth surface and can be combined to create a stunning room. The grout line width is $\frac{3}{4}$ ", and all panels come with grey grout lines except for Toscana, which has a white grout line.

Fibo | Fortissimo Decor selection

Fibo | Collection: Legato

Collection: Legato

The Legato collection contains four smooth surface designs with no grout lines.
The colors are neutral - sandy or shades of grey and will suit most homes.
Go for a minimalist, silky look or the steel-like Titan!

Panels are available in standard lengths (94 $\frac{3}{4}$ ") as well as
extra long lengths (up to 118 $\frac{5}{64}$ "). More on page 42.

Fibo Legato 172 POLAR GREY // 110 S WHITE

Fibo Legato 110 S WHITE

Silky surfaces with the timeless Legato

This collection is perfect for most homes with standard or high ceilings. It is an inexpensive alternative that looks as good in the laundry room as it does in the hallway or bathroom.

Legato panels come without grout lines and can therefore easily be combined with other Fibo designs.

Fibo | Legato Decor selection

Fibo | Collection: Adagio

Collection: Adagio

The Adagio collection contains five different designs with two different textures. Evoke the Mediterranean with a marble finish or a stylish stone design, or go for a rougher look with the new **Meton Grey**.

Fibo Adagio 5746 S GREY SAND

Smarten up with Adagio

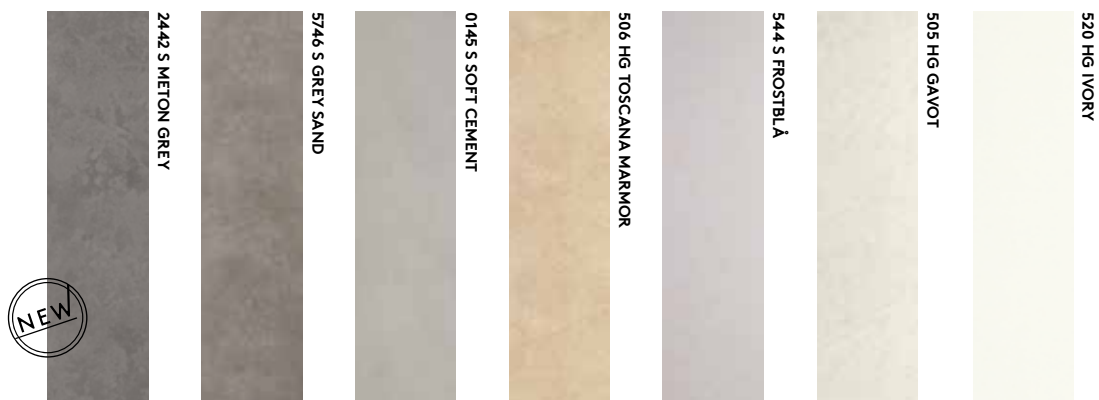

The Adagio collection includes panels with no grout lines and a smooth surface. Panels create a sophisticated and timeless look.

Marble and cement are here to stay, and Adagio lets you add character to your bathroom on a modest budget.

Fibo | Installation

Quick and easy installation of Fibo Wall Panels

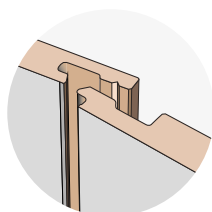

According to calculations, installing Fibo Wall Panels is five times faster than laying tiles. Most of the time is saved on the groundwork – Fibo can be mounted directly on studs or certain types of existing walls.

Please see the installation videos or download installation instructions on our webpage fibosystemusa.com

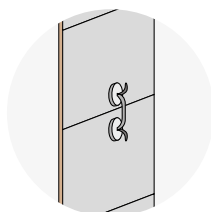

Correct accessories are half the job

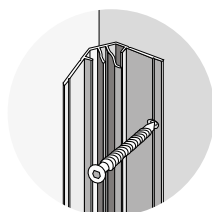

The wall system is mounted by first setting up profiles that form the framework of the wall system. Then the boards are mounted, all joints are sealed with Fibo's sealant, Fibo Seal. Accessories are also available to facilitate installation

Fibo | The smart, cost-efficient solution

The smart way to transform your wall

Fibo's wall system is a quality Norwegian product, manufactured in contemporary decors and designs, which is both cost-effective and easy to maintain.

Fibo | Warranty

Fibo wall system is approved according to the European technical approval guideline, ETAG022 and the panels has a warranty of 25 years in commercial applications and a Limited LifeTime - residential. It gives you a solution that will last for decades and yet is affordable and easy enough to change on a whim for new colors or designs.

Fibo | The smart Aqualock solution

Fibo Aqualock: 100% Waterproof

With our patented Aqualock click system, Fibo panels are perfect for both refurbishment or new construction projects. The system makes the product unique and 100% waterproof, simplifies the assembly and minimizes joints. There's no need for a water vapor barrier or another waterproof membrane behind the panels.

To make the surface waterproof, all corners, joints, profiles and edges must be sealed.

UL 723 fire test
