Fibo | Collection: Kitchen Board

Backsplash

The Fibo Kitchen Backsplash Board is a safe, durable and easy to install solution that will protect the space between a countertop and kitchen cabinets against water and splashes from cooking. It is also a fast way to renew and add your personal touch to a kitchen.

We offer a broad selection of Kitchen Backsplash Boards.

**The possibilities are endless -
find a solution that suits your kitchen!**

Fibo Kitchen Board 2272 S BLACK MARBLE M00

Fibo Kitchen Board 4002 S TERRAZZO DARK KM72

Renew your kitchen in an afternoon

Fibo Kitchen Board is a safe and durable solution that is fast and easy to install.

The panels are resistant to water, easy to clean and maintenance-free. Choose from a huge range of different designs, and fit directly on studs or on existing kitchen walls according to our installation instructions.

Our Kitchen Board collection comes in a standard size of $24 \frac{13}{32}$ " x $18 \frac{7}{64}$ ", but do not forget that the panels can also be combined with full length panels.

Easy to install, and easy to maintain.
Glue or screw the panels.

Abbreviations for surface finishes:

HG = High Gloss, S = Silk, GEM = GEM stone, STN = Stone, EM = Extra Matt, RU = Rustic, C = Cement, SL = Slate, MET = Metal.

* GEM and C decors have a rougher texture which demands cleaning with a lint-free cloth or melamine sponge.

** Kitchen Boards with a MET surface must be handled with care to avoid scratches. Note: Do not use in showers!

Correct accessories are half the job

Fibo provides a complete system with accessories and profiles that make it easy to secure optimal results and make installation as simple as possible. The panels can be attached with screws through the Aqualock click system or simply glued to the wall.

Fitting accessories for Kitchen Board Backsplash: Anodised aluminum

Profiles supplied in lengths of 18 $\frac{3}{4}$ " or 94 $\frac{3}{4}$ "

L-shaped finishing profile

The L-shaped finishing profile is made for covering the cut surfaces. It is easily attached with glue or sealant to the edges.

Hidden internal corner

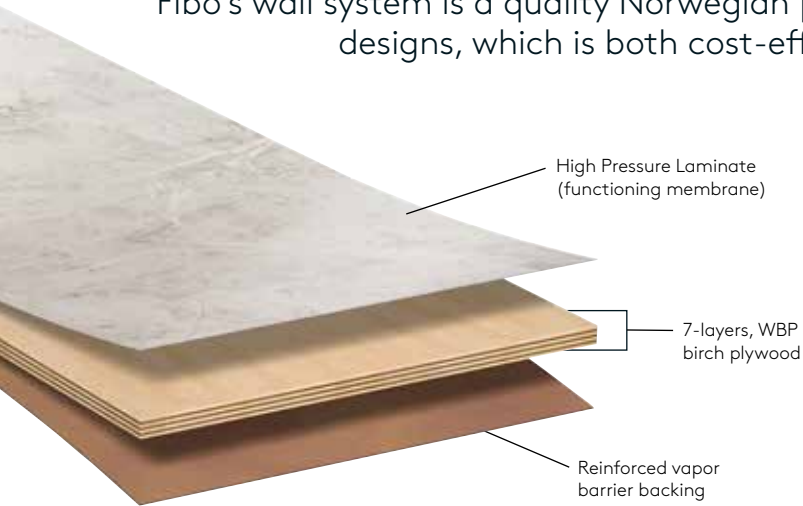

Use the hidden internal corner profile to connect the two panels in the corner. The profile will not be visible when the installation is done. Use Sealant in the corner and against the worktop as the last part of the installation.

Fibo | Walls Built For Life

The smart way to transform your wall

Fibo's wall system is a quality Norwegian product, manufactured in contemporary designs, which is both cost-effective and easy to maintain.

Fibo | Warranty

Fibo wall system is approved according to the European technical approval guideline, ETAG022 and has a warranty of 25 years in commercial applications and a Limited LifeTime - residential. It gives you a solution that will last for decades and yet is affordable and easy enough to change on a whim for new colors or designs.

Fibo | The smart Aqualock solution

Fibo Aqualock: 100% Waterproof

With our patented Aqualock click system, Fibo panels are perfect for both refurbishment or new construction projects. The system makes the product unique and 100% waterproof, simplifies the assembly and minimizes joints. There's no need for a water vapor barrier or another waterproof membrane behind the panels.

To make the surface waterproof, all corners, joints, profiles and edges must be sealed.

UL 723 fire test
CARB 93120 ATCM compliant
TSCA Title VI compliant
ASTM E1333 Emission test
PROP 65
