

Bathroom & Kitchen

Wellbeing, relaxation, and functionality

CREATE YOUR DREAM BATHROOM

Our bathrooms are perhaps our most personal and intimate space in the home. Once seen as a place to cleanse our bodies, they are now a place of sanctuary. Somewhere where we go to escape the stresses of everyday life and to feel rejuvenated.

Almost everyone visiting your home sees your bathroom. As well as providing a relaxing atmosphere, it should be easy to clean, hygienic and functional by design.

Efficient & effective

A COST-EFFECTIVE INNOVATIVE SYSTEM

From our very beginning, Fibo's focus on innovation has been our greatest driving force. Wet rooms leave little room for error. Our products are tested to meet the highest wet room standards, and it's why building contractors, public sector developers, and skilled tradespersons all choose Fibo.

AT HOME WITH NATURE

Scandinavian design represents the simple and the functional. We want solutions that provide a sustainable lifestyle. Not only for ourselves, but for nature and the people around us.

A NEW BATHROOM IN ONE, TWO, THREE!

Fibo wall panels are easy to assemble. Our innovative wall system is 100% waterproof and is delivered ready to assemble, saving you both time and money. Get the bathroom you've always wanted for a great price!

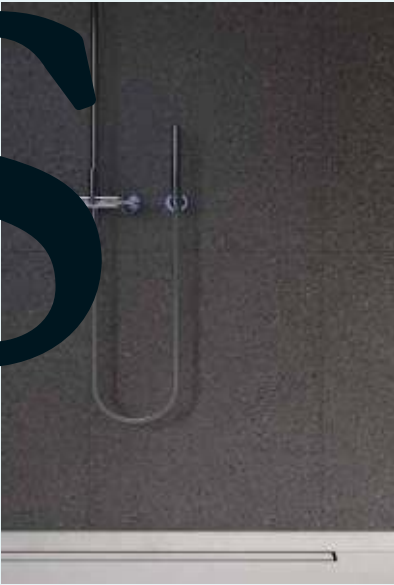

GOOD FOR YOU AND YOUR SURROUNDINGS

Our products are made of certified renewable wood, without harmful chemicals and have a lower CO2 footprint than most tiles.

DESIGN THAT MEET YOUR NEEDS

Our decors are timeless and independent of shifting trends. The surface is easy to clean – optimal for all areas subject to humidity and a lot of wear.

Watch our instructive installation videos at fibosystem.com

New Decors

With its origins in Northern Italy, Carrara marble is the inspiration behind our sophisticated new marbles. Bianco Marble has a silk matt finish and Bright Marble has a high gloss. Both are certain to give any new bathroom a luxurious look and feel.

We have added two new slates to our collections. Grey Slate is a contemporary decor that has the look and feel of real slate. With its extra matt surface, the decor oozes exclusivity and elegance! Grey Slate joins the Marcato Collection. Silver Slate, with its smooth surface, is added to the Adagio Collection.

Antibacterial Surfaces

All Fibo wall panels now come with a documented antibacterial effect. Our panel surfaces contain no harmful substances, require no special maintenance, and are tested according to the ISO 22196 standard - this means that it is virtually impossible (99.99%) for E. coli and Staphylococcus bacteria to survive. The certification covers all our panel decors, both with and without design patterns.

Minerals

Fibo Marcato 4001 TERRAZZO LIGHT M6080

STONE STRUCTURES AND NATURAL FINISHES

Bring nature indoors! Choose a mineral decor and give your bathroom that natural feeling. For the classic crushed stone look, we have two versions of Terrazzo to choose from. Perfect for creating a natural, yet modern look, is our new Grey Slate.

NEW!

2035 EM GREY SLATE

4001 S TERRAZZO LIGHT

4002 S TERRAZZO DARK

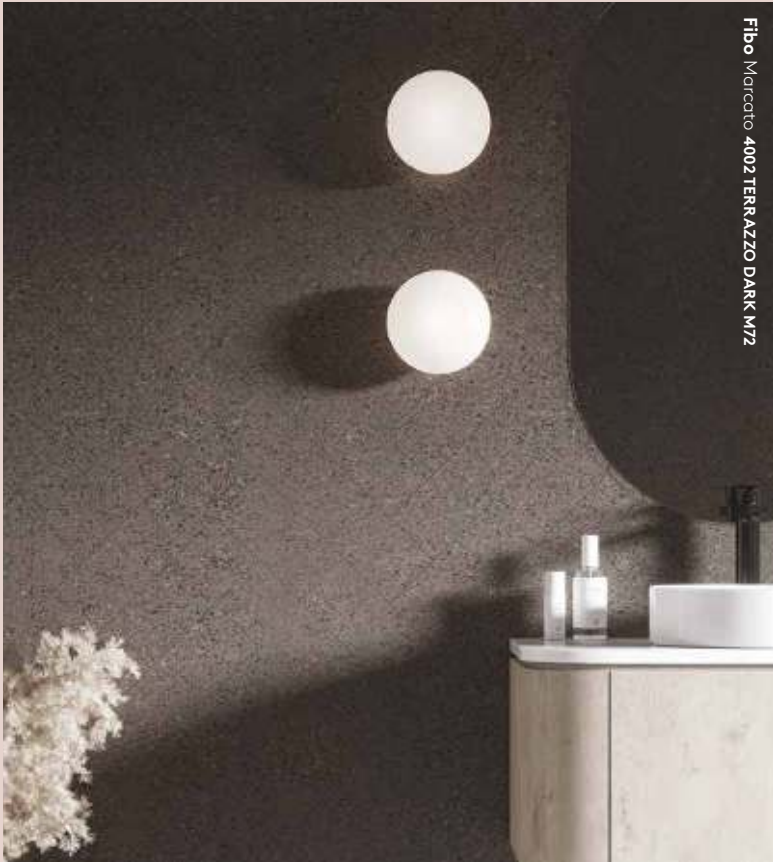

Fibo Marcato 2035 EM GREY SLATE M00

WHAT IS TERRAZZO?

Traditionally, Terrazzo is a type of concrete consisting of cement, water, crushed natural stone and as a rule includes a pigment.

Fibo Marcato 4002 TERRAZZO DARK M72

S = Silk

MODERN CLASSICS

Marble designs consistently stand the test of time and rarely go out of fashion. You cannot go wrong with any of our six decors. Black Marble is perfect if you are aiming for an edgy, contemporary look. White Marble offers a subtle touch of grace. For elegance, look no further than our new Bright and Bianco Marbles.

Concrete

Fibo Marcato 2126 S DARK SOOT M6080

Fibo Marcato 8053 STN LENTINI GREY M00

SHADES OF CONCRETE

Create a modern, industrial style, with a concrete look. We have a lot of shades to choose from. Our best-selling Cracked Cement goes well with most things - and most people! The round, smooth nature of plumbing fixtures together with brass lighting fixtures acts as a perfect contrast to the rough appearance of concrete decors, creating a warm and stylish bathroom.

TIP!
Combine natural materials of wood, cotton, linen, wool, ceramics, stone, and glass to support a close-to-nature feeling.

NATURAL WOOD STRUCTURE
Large surfaces and clean lines have always defined Scandinavian style. Using these panels with wood texture brings nature indoors and you can feel free to either minimize or maximize your interior choices.

Harmony

AIRY & CLEAN
The Scandinavian trend is often reflected in clean lines and large surfaces. And it happily combines with natural elements.

CLASSIC EXPRESSION

The Adagio Collection consists of panels without grout lines or height and surface differences. The panels create a sophisticated and timeless expression.

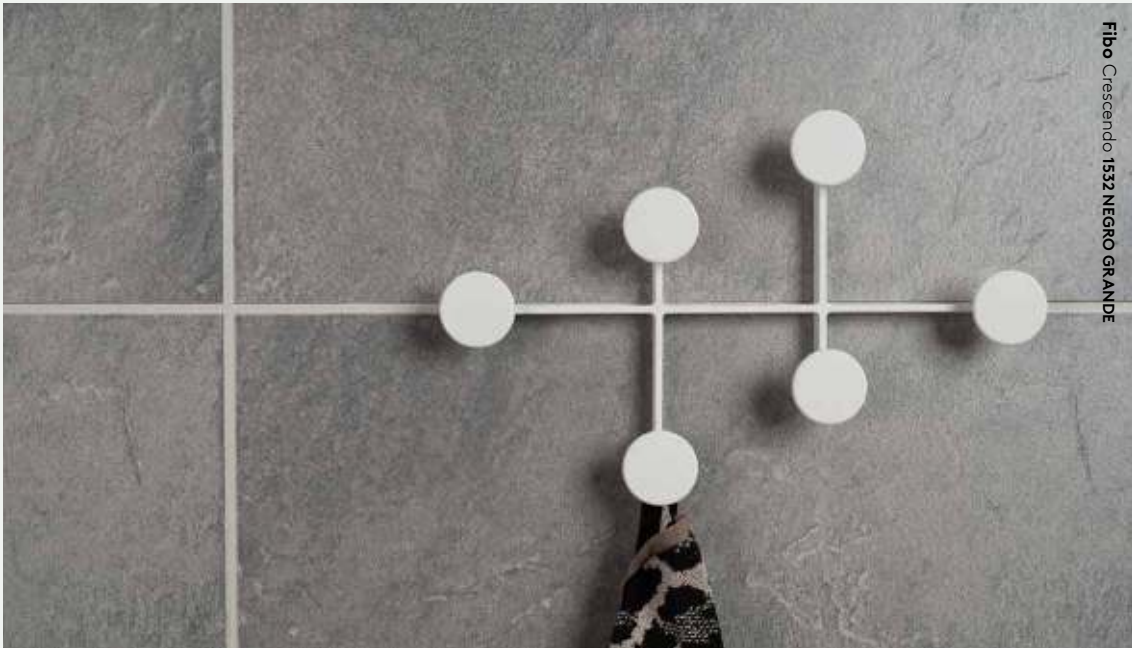

WARM, NATURAL DECORS

Create a sense of being in the Mediterranean with our Toscana Marble, timeless Gavot or delicate Ivory. The elegant Silver Slate is the latest addition to the Adagio Collection which recaptures elements of nature, for you to replicate in your bathroom.

SURFACES
S = Silk
HG = High gloss

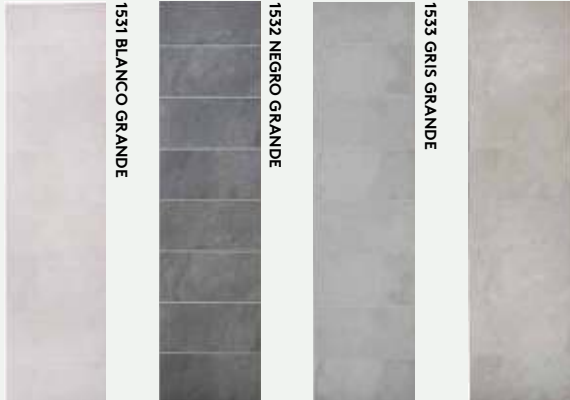

Tactility

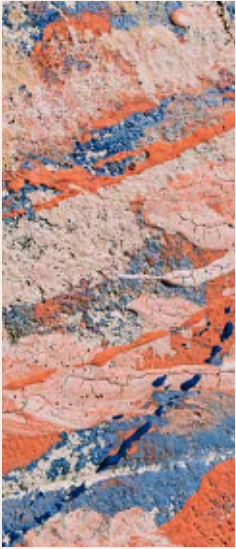

THE TACTILE FEELING OF THE SURFACE

The Crescendo collection has a unique surface with a three-dimensional effect. Both panels and grout lines have an irregular surface, giving them a realistic, natural look.

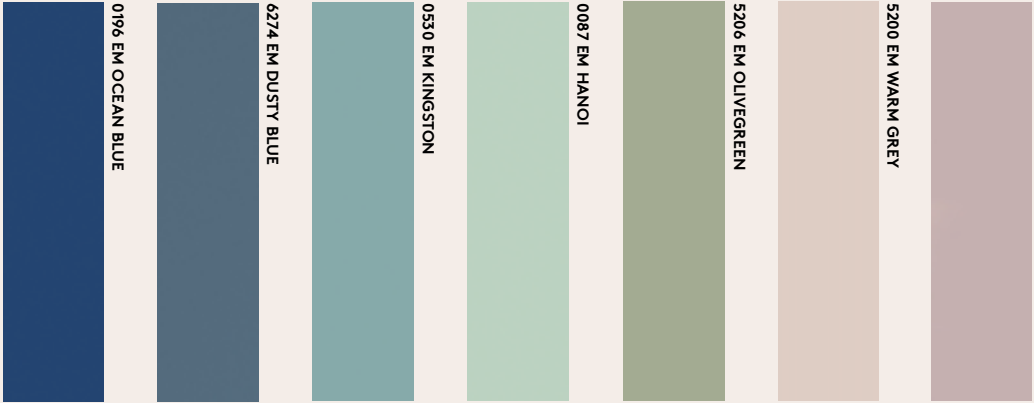

Please note that Crescendo is specially designed to incorporate authentic-looking grout lines, and the grout line width may therefore vary by +/- 2 mm. You should also know that Crescendo grout lines are not milled but are part of the panel design.

Matt colors

Fibo Colour Collection EM 6274 DUSTY BLUE M00

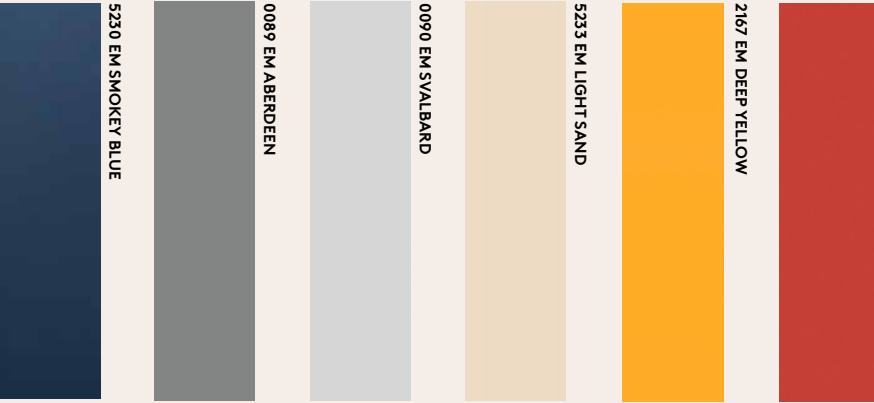

MUTED COLOURS WITH EXTRA MATT SURFACE

Colours are finally back in fashion again! This collection is fantastic, and with an extra matt finish, these panels add a trendy palette that may easily be combined with panels from other collections. Don't limit your imagination – colour creates happiness and comfort.

Fibo Colour Collection EM 2167 DEEP YELLOW

High gloss colors

GLOSSINESS TO SUIT ANY TASTE!

For creative souls who dare to express themselves, we offer these fresh, high gloss colours! It is easy to combine decors from the Colour Collection high gloss, with other collections, but note that the panels come with 1.8 mm grout lines!

Classic

TIMELESS DOESN'T NECESSARILY MEAN BORING
Classic Fortissimo is a stylish selection that suits most homes. It is found in a wide selection of designs. When making your own combination, remember that some of the collections have different grout line widths and colours. Several of the Fortissimo decors are also found in extra-length panels – for modern buildings with higher ceilings.

CLEAN LINES AND CLASSIC DECORS
All designs in the Fortissimo Collection have a smooth surface and can in theory be used together to create an exciting room. The grout line width is 3.5 mm and grout line colour for all panels is grey, aside from Toscana which has white grout lines.

SURFACES
HG = High gloss
S = Silk
SL = Slate

Clean surfaces

Fibo Legato 172 S POLAR GREY

QUITE SIMPLY

The Legato Collection has four stylish decors without grout lines and with smooth surfaces. The colours are light or in shades of grey and suit most homes with their timeless colours tones. Go for a minimalist silky look, or Titan's steely surface.

The panels come in standard heights of 2400 mm, as well as extra-long lengths up to 3020 mm.

Fibo Legato 110 S WHITE

SILKY SURFACES

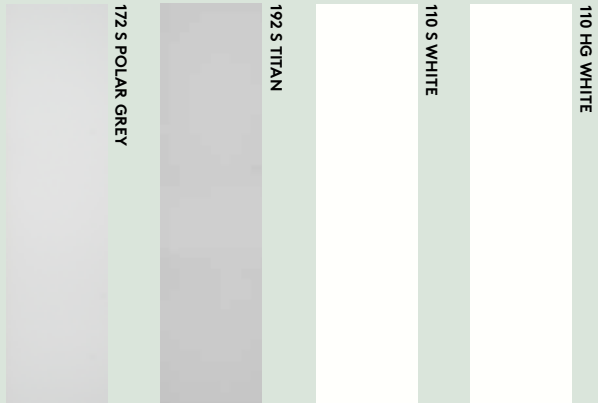

The collection suits most buildings with both normal and extra high ceilings perfectly. This is an inexpensive alternative that suits the washroom and entrance way as well as the bathroom.

Since all Legato panels are without tile patterns, they can easily be combined with all other Fibo designs.

Fibo Legato 192 S TITAN

SURFACES
S = Silk
HG = High gloss

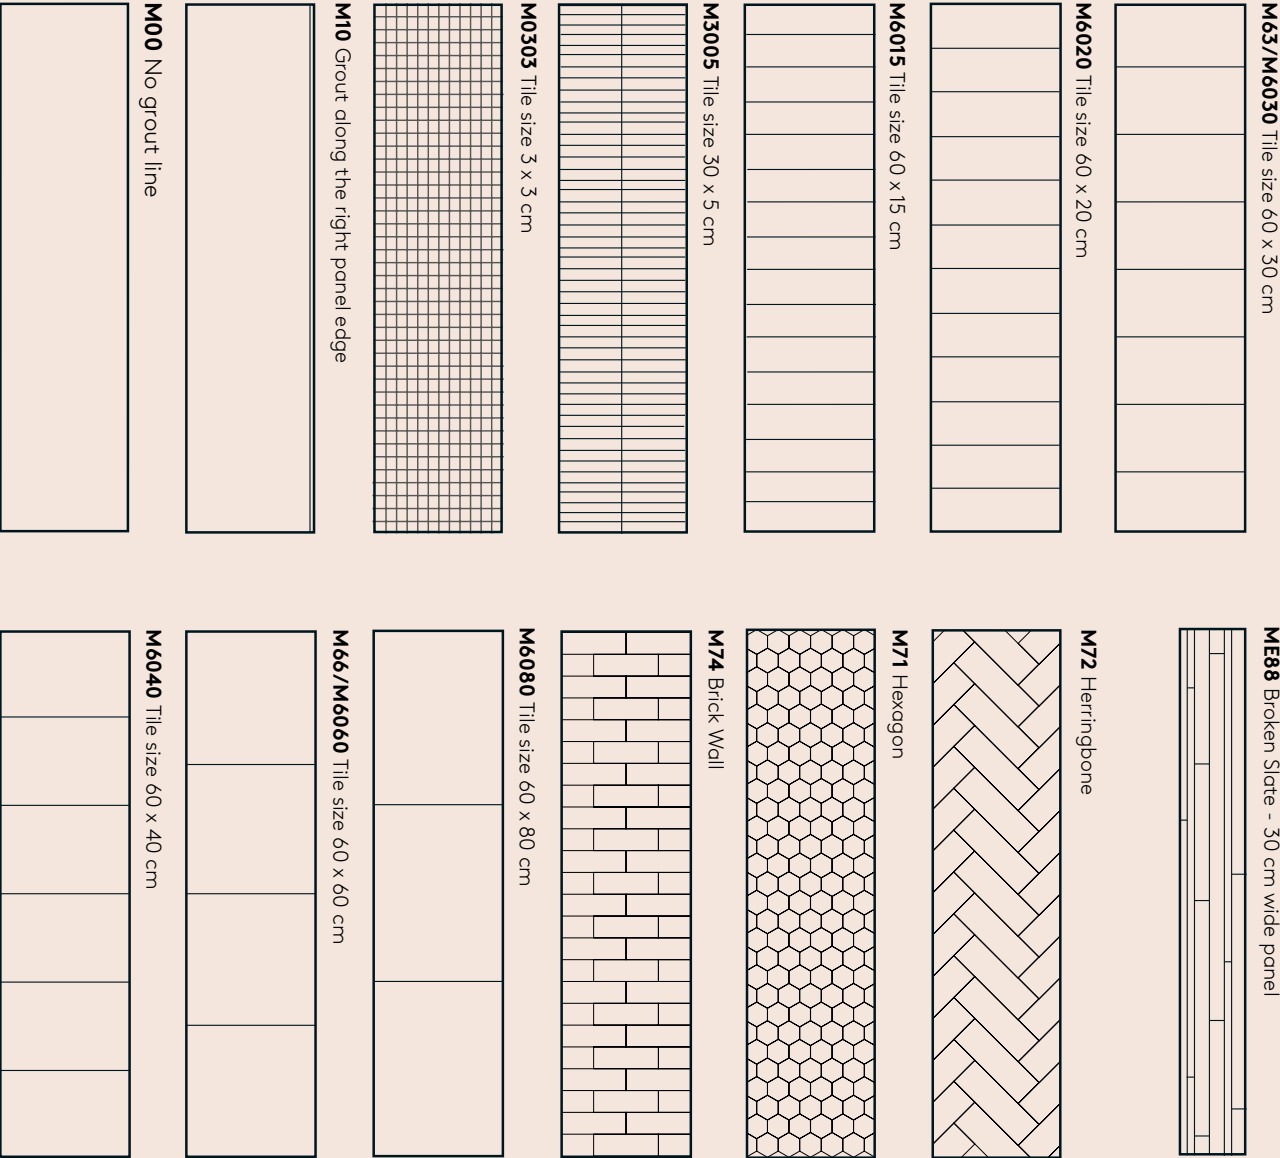

HOW TO CHOOSE: Our designs (tile patterns) provide variation to the different decors. Colour selection and width of grout lines will also accentuate or tone down the design. In the Collections Overview you will find design codes indicating the design in which the individual decor is found.

PANEL MEASUREMENTS: Standard panel measures 600x2400 mm, but some decors are available in an extra-long length of 600x3020 mm (p. 40).

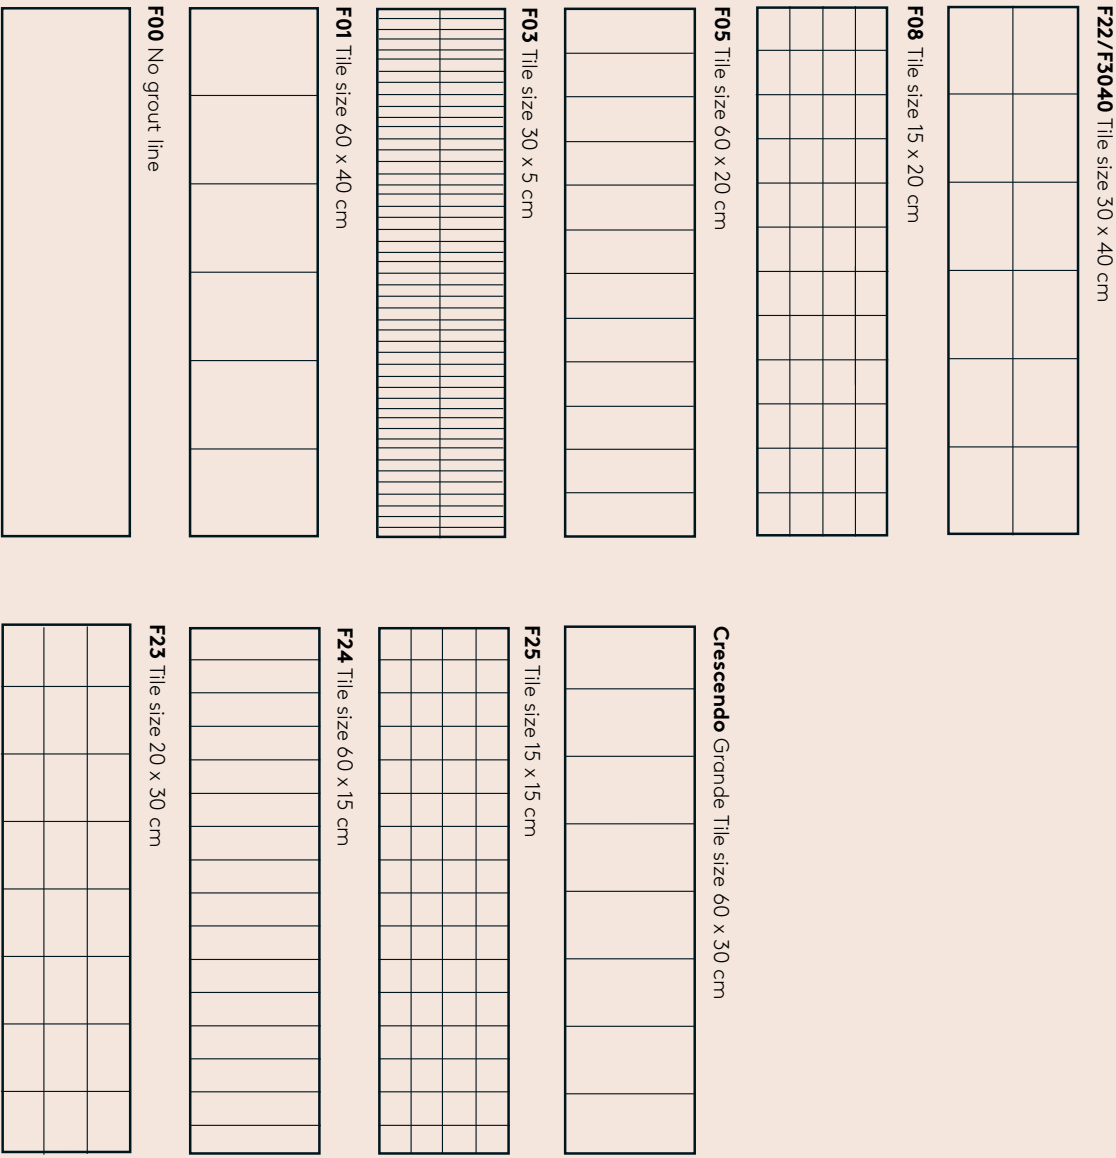

M-design

M-DESIGN has a grout line 1,8 mm wide

F-design & Crescendo

F-DESIGN has a grout line 3,5 mm wide.
CRESCENDO-DESIGN has a natural grout line of about 6 mm, which can vary +/- 2 mm

FIBO | WALLS BUILT FOR LIFE

Cistern Covers

MEASUERMENTS | 29 x 300 x 1500 mm

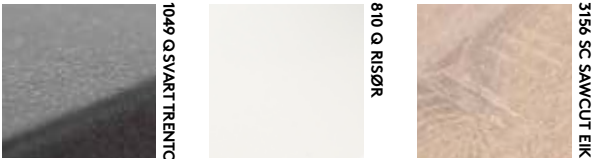

Ready-to-fit cistern lids in three different designs. These lids make it easy to cover your cistern box in combination with Fibo panels and profiles.

With pre-cut top boards in three variants, it is easy to frame the cistern in combination with Fibo boards and our profile solutions.

Lids come in three versions: Black Trento, Risør White, and Sawcut Oak.

Forming part of the complete Fibo system, these covers can be glued or fixed to the top of the cistern box.

CLICK, READY, GO!

Fibo Kitchen Boards are easy to assemble. Our innovative wall system is 100% waterproof and is delivered ready to install so that you save both time and money.

DESIGNS THAT MEET YOUR NEEDS

Our decors are timeless and independent of shifting trends. The surface is easy to clean – optimal for all areas subject to a lot of wear.

Kitchen Board

GOOD FOR YOU AND YOUR SURROUNDINGS

Our products are made of certified and renewable wood, with a low CO² footprint and without harmful substances.

TIP! Fibo Kitchen Board is a simple and smart solution that protects the wall from water splashes and frying grease when making food. The system provides seamless joints and a great transition between the panel and the countertop.

Renew your kitchen in an afternoon

Watch our simple instructional videos on fibosystem.com

USEFULNESS

The kitchen is not just a place where you cook and eat food. It is also a place for digital meetings, homework, socializing and free time.

Do it yourself!

Click

Ready

WHAT IS FIBO KITCHEN BOARD?

Fibo Kitchen Board is a stylish, safe, and durable solution that is fast and easy to install.

The panels are water resistant, easy to clean and maintenance-free. Choose from a huge range of different designs, and fit directly onto studs or on your existing kitchen walls according to our installation instructions.

CLOSER TO NATURE

We create solutions for a sustainable lifestyle. Not only for ourselves, but also for nature and the people around us.

Go!

SOLID

Fibo Kitchen Board has a thickness of 11 mm and the plywood core hides any irregularities in the rear wall, giving a beautiful result.

Marble

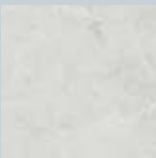

TIMELESS IN AN INSTANT

Fibo Kitchen Board is the fastest way to renovate and give the kitchen a personal touch. We offer a wide range of easy-care and maintenance-free panel. Fibo Kitchen Board is mounted directly on studs or the existing back wall. Follow the installation instructions that come with the product or on fibosystem.com, and you are guaranteed a great result in no time at all!

2276 S GOLDEN
BROWN MARBLE

TIMELESS CLASSICS

Marble designs consistently stand the test of time and rarely go out of fashion. We have three marbles to match all kitchen designs. Black Marble is perfect if you are aiming for an edgy, contemporary look. White Marble is light and airy and offers a subtle touch of grace. Golden Brown Marble is perfect for creating a calm and cosy atmosphere.

TIP! Full length panels are perfect for spaces where you do not have any cabinets. Choose Fibo for style and protect your kitchen wall at the same time.

Metal

A Kitchen Board with a metallic surface can be scratched more easily.

RENEW YOUR KITCHEN IN ONE-TWO-THREE

METAL SURFACES CREATE A UNIQUE LOOK AND FEEL
Create a modern look and feel with a shining metal decor in bushed gold, copper, or steel. Combined with earthly coloured details and elements from nature, you get a tough looking kitchen that really stands out.

Minerals

Fibo Kitchen Board 8056 STN LENTINI DARK KM00

Fibo Kitchen Board 4001 TERRAZZO LIGHT KM72

Fibo Kitchen Board 4002 DARK TERRAZZO KM72

STONE TEXTURE AND NORDIC NATURE

Bring nature indoors! Choose a mineral decor and give your kitchen that natural feel. Choose between a crushed stone Terasso effect, or Sahara for something a little more fine-grained.

Monochrome

A LIFE IN BLACK AND WHITE, AND EVERYTHING IN BETWEEN

If you choose a solid coloured decor, the kitchen will have a timeless expression. It's a good way to play with contrasts and highlight interior details. Kitchen Boards from Fibo are easy to keep clean and withstand water splashes and temperature changes*.

* If the stove emits heat higher than 80° towards the rear wall, a heat-protective plate must be mounted in front of the Fibo Kitchen Board. Kitchen Board is wood-based and meets fire class D-s1,d0.

Fibo Kitchen Board 2024 S BLACK KM71

Fibo Kitchen Board 4091 SL WHITE SLATE KM70

Cover the entire wall

SENSE OF WHOLENESS

Our Kitchen Boards can be obtained in full height from floor to ceiling and can also be used on entire walls. If the room is small, this can give a better overall impression. Read more on fibosystem.com.

Fibo Kitchen Board 2272 S BLACK MARBLE M00

TIP! Add details in the same shades to enhance the overall impression and create a uniform expression.

Note! If the stove emits heat higher than 80° towards the wall behind it, a heat-protective disc must be mounted in front of the Fibo Kitchen Board. Our product is wood-based and meets fire class D-s1,d0.

The colors in the collection overview may deviate slightly from the color of the product itself.
* Kitchen Board with a metallic surface can be scratched more easily and should not be used in showers.

A Simple and Complete Solution

Fibo's wall system is 100% waterproof and has all necessary approvals for wet rooms. The system is supplied as a complete set of accessory products and profiles, which simplifies installation and ensures a perfect result.

THE RIGHT TOOL IS HALF THE JOB

Installation accessories and profiles are specially adapted and dimensioned for a waterproof and safe result.

TIP! Read the installation instructions carefully and watch our installation videos on fibosystem.com before you start work.

SELECT THE CORRECT PROFILES

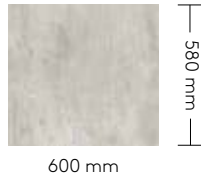

REMEMBER! To ensure a waterproof surface and an approved bathroom, the installation must always be carried out in accordance with the installation instructions in force at any given time.

INSTALLATION ACCESSORIES

Kitchen Board

Wall Panel

Extra Long Panel

ANTIBACTERIAL PROPERTIES

All Fibo wall panels now come with a documented antibacterial effect. Our panel surfaces contain no harmful substances, require no special maintenance, and are tested according to the ISO 22196 standard - this means that it is virtually impossible (99.99%) for E. coli and Staphylococcus bacteria to survive. The certification covers all our panel decors, both with and without design patterns.

PANEL SIZES

2400 mm panel height allow for a rapid, easy installation of a whole wall from floor to ceiling. Certain decors are also found in 3020 mm length for rooms with extra high ceilings. We also offer a broad selection of decors in 920 mm wide panels, with no tile effect, in addition to a 320 mm wide accent panel.

Kitchen Boards are panels 580 mm in height, adapted to the splash zone between the kitchen counter and cupboards. The panels protect the wall from water or food preparation splashes.

WORLD CLASS WALL PANELS

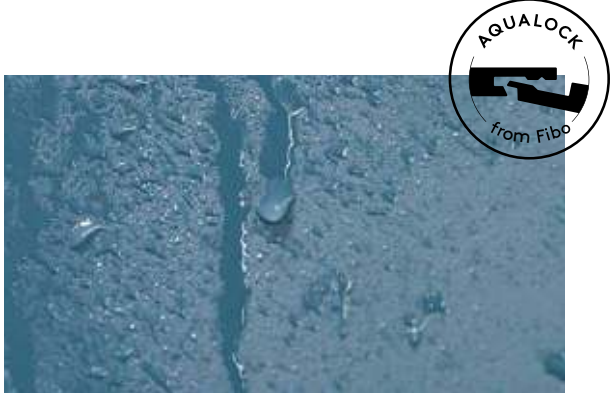

Fibo wall panel has a plywood core made from PEFC certified wood types. The boards are pressed together and covered with high-pressure laminate so that there is a membrane in front. You thus get a 100% waterproof, environmentally friendly design wall adapted to your needs.

Design approval: D21569 No.00 + US.00.
Patent approval: P24306 No.00 + US.00 + EP.00.

FIBO AQUALOCK: 100% WATERPROOF

Our Aqualock click lock makes the Fibo wall system the perfect choice for both renovation and new constructions. The unique wall system provides a 100% waterproof surface, simplifies installation, and makes the joints virtually invisible. There is also no need for a moisture barrier or other type of waterproof membrane behind the panels.

Walls built for life

The UNs Sustainable Development Goals (SDGs) provide a shared blueprint for peace and prosperity for people and planet, now and into the future. Fibo is guided by eight of the UN's SDGs which affects everything we do. From the raw materials we choose, to our manufacturing processes and even the transport firms we use to distribute our wall panels. Read more on fibosystem.com.

SUSTAINABILITY

Fibo is a responsible company committed to sustainability. Our raw materials come certified renewable wood, and we take special responsibility for making products that last. All our materials are fully traceable, and we publish our Environmental, Social and Governance (ESG) report annually so you can follow our progress.

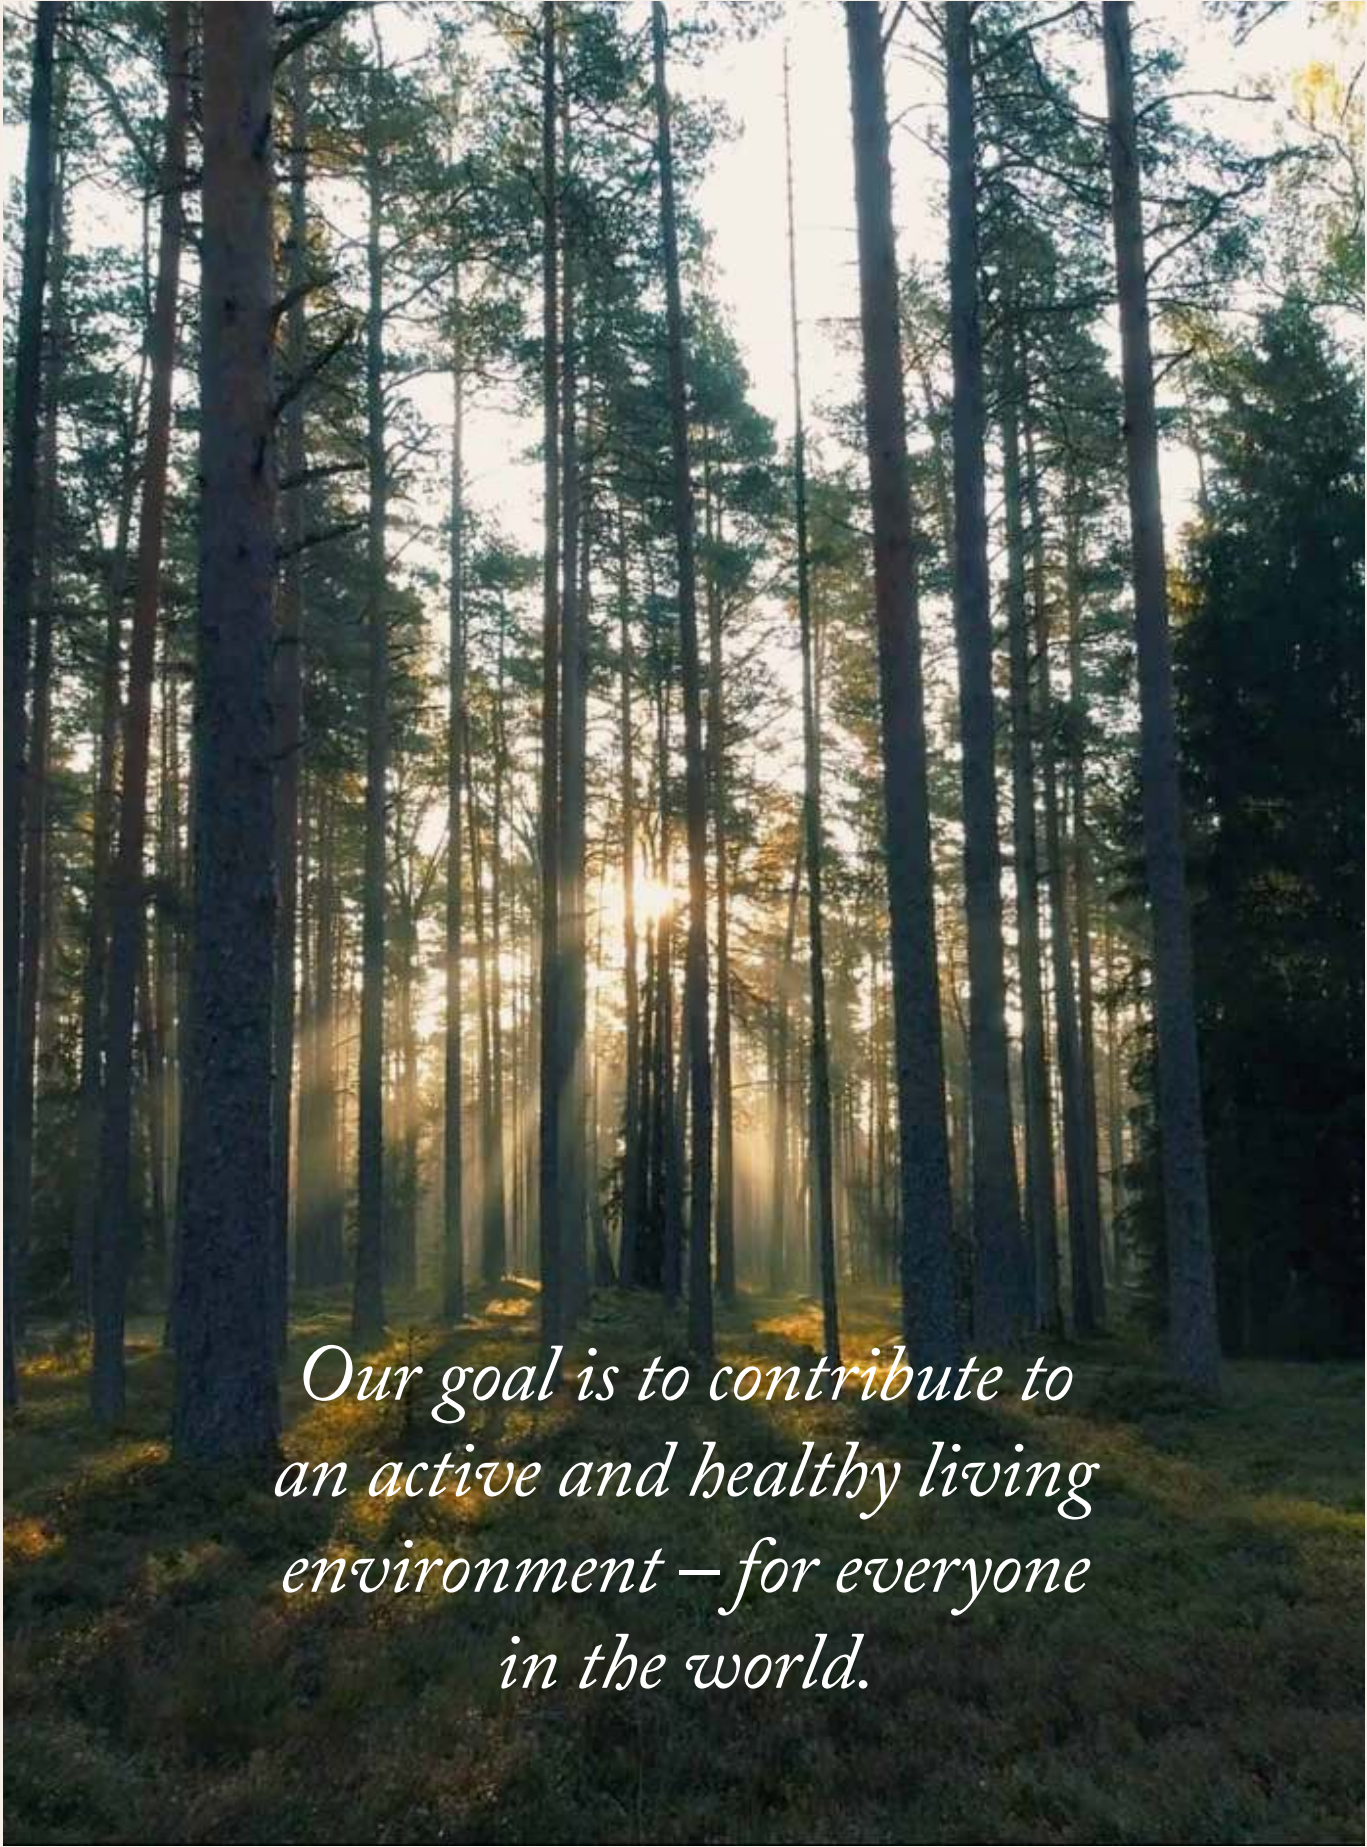

ENVIRONMENT

We continuously strive to reduce our environmental impact. We have reduced energy consumption during manufacturing, halved the amount of plastic used in packaging and reduced wastage in production. Our factory has the highest environmental standards and is certified according to ISO 14001:2015.

The building and construction industry accounts for almost 40% of global CO² emissions. Our wall panel products have a lower carbon footprint than most tiles. Reduce your building's CO² emissions. Choose Fibo.

QUALITY

Since 1952 we have been making wall solutions that are based on the world's strictest building standards. Our products are built to last and come with a limited lifetime warranty.

Our goal is to contribute to an active and healthy living environment – for everyone in the world.
