THE COLLECTIONS

Durable and modern wall panel with 100% waterproof surface | fibosystem.com

We are passionate about innovation and Scandinavian lifestyle

In our collections we unite the natural with the stylish. Feel free to choose from a palette of different designs, colours and structures. Let us inspire you to create and furnish with the newest trends within Scandinavian design.

WITH A FOCUS ON INNOVATION

Despite our humble beginnings, Fibo's focus on innovation has always been our biggest driving force. In wet rooms there is no room for error. Even though you might just be renovating a small bathroom, it is reassuring to know that construction workers, public sector developers and professional tradespeople all choose Fibo.

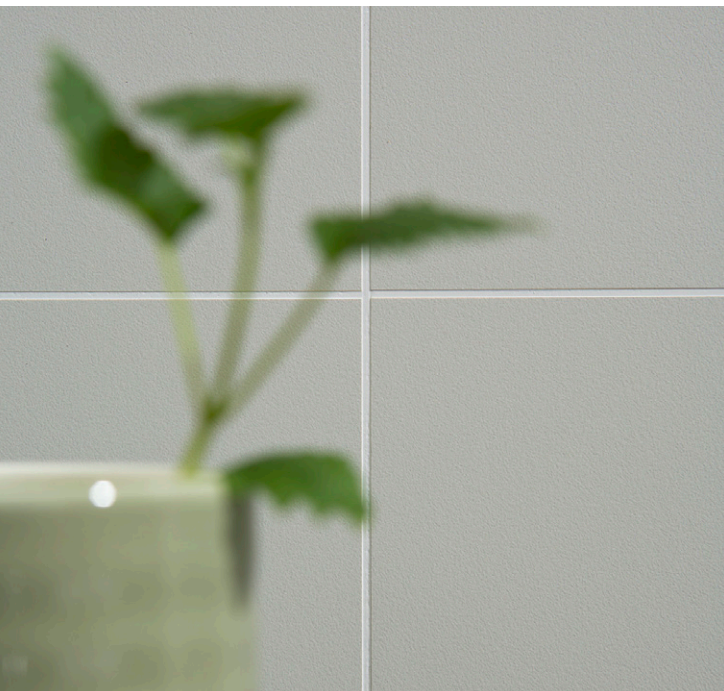

Build a quality bathroom or kitchen with wall panel from Fibo

Fibo is engaged in ongoing product development and is always looking to tailor its products to meet customers' needs. You can mix and match styles to suit your personal taste. Design and quality go hand in hand.

Our panels are compliant with the European ETAG022 for wet rooms. No need for hassle with plaster, membrane or tiles. The panels can be screwed directly onto existing walls or studs. They are also easy to cut and adapt to your walls. All panels use our unique Aqualock system and are easy to fit.

The smooth, strong surface is capable of withstanding direct water exposure and big temperature fluctuations, and the panels are easy to wipe and keep clean. Just follow the simple installation instructions, and you're guaranteed a wall that will last for decades.

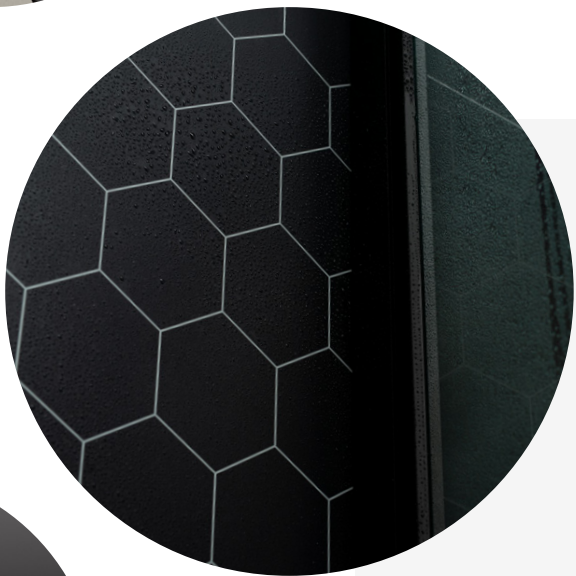

Our own sustainability goal

We believe that responsible and sustainable development is also a wise way of doing business.

That's why we aim for the lowest possible emissions and are careful that our suppliers comply with strict recycling requirements at all stages. In line with the goal of sustainable forest management, the wall panels are PEFC certified. A clear advantage of using wood products is the potential for storing carbon from the atmosphere throughout its lifetime.

Stylish new designs

We launch several beautiful designs on a selection of contemporary decors. Create your unique style!

AVAILABLE IN WALL PANEL AND KITCHEN BOARD

In wall panel and Kitchen Board, we launch new Terrazzo decors with herring-bone design, and two new dark decors, Dark Soot and Black, with hexagon design. In addition, we come with brick wall designs in several current colours and a design with a standing, narrow tile pattern in beautiful Midnight Blue. Spend a stylish time with these effective designs and create a dynamic expression in your room.

All new designs have a joint width of 1.8 mm and information about selection and joint colour can be found in the collection overviews at page 34-37 (Wall Panel) and page 52-53 (Kitchen Board).

Fibo Marcato 4001 S TERRAZZO LIGHT M00/M72

Fibo Marcato 4002 S TERRAZZO DARK M6080/M72

WALL PANEL IN STYLISH VARIANTS

The Marcato collection is delivered in a variety of patterns, surfaces and designs. Choose natural tones inspired by wood, earth and stone with different textures.

The joint width in the entire Marcato collection is 1.8 mm and the joint colour is either white, grey or dark anthracite. Feel free to come up with different combinations to see which panels fit together. Remember to combine panels with the same joint colour!

TRENDY TERRAZZO

The international terrazzo trend has reached our assortment, and it is a pleasure to be able to offer these delicate varieties in many beautiful designs. Why not combine large tiles with a herringbone patterned contrast wall in the same decor!

CRESCENDO = UNIQUE!

Create a relaxing atmosphere in your bathroom with these 100% three-dimensional panels!

The collection has a unique surface with a three-dimensional effect. Both panels and grout lines have an irregular surface, giving them a realistic, natural look.

Please note that Crescendo is specially designed to incorporate authentic-looking grout lines, and the grout line width of about 6 mm may therefore vary by +/- 2 mm. You should also know that Crescendo grout lines are not milled but are part of the panel design.

Surface structure:
HG = High gloss, SL = Slate, S = Silk, STN = Stone, EM = Extra matt, RU = Rustic, MET = Metal.

* Kitchen Boards with MET surface are more easily exposed for scratches, and must not be used in a wet area (shower zone).

Easy and fast installation of Fibo Wall panels and Kitchen Board

According to calculations, installation of Fibo wall panels goes at least five times faster than laying tiles. Forget spending time on groundwork since Fibo can be mounted directly on studs, and on various types of existing wall.

Please see the installation guide on the next pages or check out fibosystem.com/install-fibo for more information.

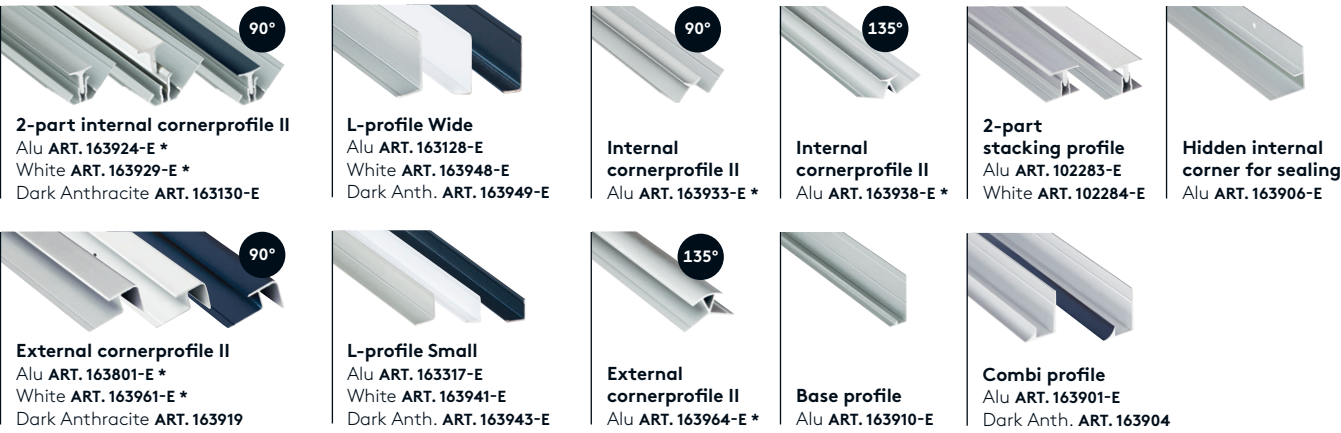

Correct accessories are half the job

Fibo offer a complete system to ensure optimal results and make the installation as easy as possible for you. The customized accessories ensure a perfect and safe result.

Fibo | The cost efficient and smarter solution

The smart way to transform your wall

Fibos wall system is a Norwegian high quality product, manufactured in contemporary designs. The system is both easy and cost-effective in use.

Fibo | Warranty

Fibo wall system is approved according to the European technical approval guideline, ETAG022 with a warranty of 15 years. It gives you a bathroom that is durable for decades and affordable enough to replace the panels if you want new colours or new designs on your walls!

Fibo | The smart Aqualock solution

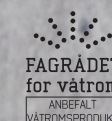

Fibo Aqualock: 100% Waterproof

With our patented Aqualock click system, Fibo panels are perfect for both refurbishment or new construction projects. The system makes the product unique and 100% waterproof, simplifies the assembly and minimizes the joints. There's no need for a water vapor barrier or other waterproof membrane behind the panels.

Design approval: D21569 No.00 + US.00. Patent approval: P24306 No.00 + US.00 + EP.00.

To make the surface waterproof, must be sealed all corners, joints, profiles and edges.
