

# Bathroom & Kitchen

# Wellbeing, relaxation, and functionality

### CREATE YOUR DREAM BATHROOM

Our bathrooms are perhaps our most personal and intimate space in the home. Once seen as a place to cleanse our bodies, they are now a place of sanctuary. Somewhere where we go to escape the stresses of everyday life and to feel rejuvenated.

Almost everyone visiting your home sees your bathroom. As well as providing a relaxing atmosphere, it should be easy to clean, hygienic and functional by design.

# Efficient & effective

### A COST-EFFECTIVE INNOVATIVE SYSTEM

From our very beginning, Fibo's focus on innovation has been our greatest driving force. Wet rooms leave little room for error. Our products are tested to meet the highest wet room standards, and it's why building contractors, public sector developers, and skilled tradespersons all choose Fibo.

### AT HOME WITH NATURE

Scandinavian design represents the simple and the functional. We want solutions that provide a sustainable lifestyle. Not only for ourselves, but for nature and the people around us.

A NEW BATHROOM IN ONE, TWO, THREE!

Fibo wall panels are easy to assemble. Our innovative wall system is 100% waterproof and is delivered ready to assemble, saving you both time and money. Get the bathroom you've always wanted for a great price!

GOOD FOR YOU AND YOUR SURROUNDINGS

Our products are made of certified renewable wood, without harmful chemicals and have a lower CO2 footprint than most tiles.

DESIGN THAT MEET YOUR NEEDS

Our decors are timeless and independent of shifting trends. The surface is easy to clean – optimal for all areas subject to humidity and a lot of wear.

Watch our instructive installation videos at [fibosystem.com](https://fibosystem.com)

# New Decors

We welcome new tile combinations, colours and stylish slate and marble decors in the collections. Enjoy every variation in the Fibo range, and let yourself impress by the latest within the category.

# Antibacterial Surfaces

All Fibo wall panels now come with a documented antibacterial effect. Our panel surfaces contain no harmful substances, require no special maintenance, and are tested according to the ISO 22196 standard - this means that it is virtually impossible (99.99%) for E. coli and Staphylococcus bacteria to survive. The certification covers all our panel decors, both with and without design patterns.

# Minerals

Fibo Marcato 4001 TERRAZZO LIGHT M6080

**STONE STRUCTURES AND NATURAL FINISHES**  
Bring nature indoors! Choose a mineral decor and give your bathroom that natural feeling. For the classic crushed stone look, we have two versions of Terrazzo to choose from. Perfect for creating a natural, yet modern look, is our new Grey Slate.

**NEW!**

2035 EM GREY SLATE

4001 S TERRAZZO LIGHT

4002 S TERRAZZO DARK

Fibo Marcato 2035 EM GREY SLATE M00

**WHAT IS TERRAZZO?**  
Traditionally, Terrazzo is a type of concrete consisting of cement, water, crushed natural stone and as a rule includes a pigment.

Fibo Marcato 4002 TERRAZZO DARK M72

# Marble

Fibo Marcato 3487 BRIGHT MARBLE M6060

SURFACES  
S = Silk  
HG = High Gloss

## MODERN CLASSICS

Marble designs consistently stand the test of time and rarely go out of fashion. You cannot go wrong with any of our six decors. Black Marble is perfect if you are aiming for an edgy, contemporary look. White Marble offers a subtle touch of grace. For elegance, look no further than our new Bright and Bianco Marbles.

Fibo Marcato 2278 S GOLDEN BROWN MARBLE M00

Concrete

Fibo Marcato 2126 S DARK SOOT M6080

Fibo Marcato 8053 STN LENTINI GREY M00

SHADES OF CONCRETE

Create a modern, industrial style, with a concrete look. We have a lot of shades to choose from. Our best-selling Cracked Cement goes well with most things - and most people! The round, smooth nature of plumbing fixtures together with brass lighting fixtures acts as a perfect contrast to the rough appearance of concrete decors, creating a warm and stylish bathroom.

# Wood Texture

Fibo Marcato 7969 SC ROUGH WOOD M66

**SURFACES**  
SC = Sawcut  
EM = Extra matt  
RU = Rustic

**TIP!**  
Combine natural materials of wood, cotton, linen, wool, ceramics, stone, and glass to support a close-to-nature feeling.

**NATURAL WOOD STRUCTURE**  
Large surfaces and clean lines have always defined Scandinavian style. Using these panels with wood texture brings nature indoors and you can feel free to either minimize or maximize your interior choices.

# Harmony

**AIRY & CLEAN**  
The Scandinavian trend is often reflected in clean lines and large surfaces. And it happily combines with natural elements.

Fibo Marcato 5342 EM SAHARA M63

HG = High gloss

# Tactility

Fibo Crescendo 1534 SAND GRANDE

Fibo Crescendo 1532 NEGRO GRANDE

Fibo Crescendo 1531 BLANCO GRANDE

## THE TACTILE FEELING OF THE SURFACE

The Crescendo collection has a unique surface with a three-dimensional effect. Both panels and grout lines have an irregular surface, giving them a realistic, natural look.

Please note that Crescendo is specially designed to incorporate authentic-looking grout lines, and the grout line width may therefore vary by +/- 2 mm. You should also know that Crescendo grout lines are not milled but are part of the panel design.

# Matt colors

# Clean surfaces

Fibo Legato 172 S POLAR GREY

### QUITE SIMPLY

The Legato Collection has four stylish decors without grout lines and with smooth surfaces. The colours are light or in shades of grey and suit most homes with their timeless colours tones. Go for a minimalist silky look, or Titan's steely surface.

The panels come in standard heights of 2400 mm, as well as extra-long lengths up to 3020 mm.

Fibo Legato 110 S WHITE

### SILKY SURFACES

The collection suits most buildings with both normal and extra high ceilings perfectly. This is an inexpensive alternative that suits the washroom and entrance way as well as the bathroom.

Since all Legato panels are without tile patterns, they can easily be combined with all other Fibo designs.

Fibo Legato 192 S TITAN

**SURFACES**  
S = Silk  
HG = High gloss

# Tile design overview

**HOW TO CHOOSE:** Our designs (tile patterns) provide variation to the different decors. Colour selection of grout lines will accentuate or tone down the design. In the Collections Overview you will find design codes indicating the design in which the individual decor is found.

**PANEL MEASUREMENTS:** Standard panel measures 600x2400 mm, but some decors are available in an extra-long length of 600x3020 mm (p. 38).

**M-DESIGN** has a grout line 1,8 mm wide and the grout colour varies between white, grey and dark anthracite

## L/LM-design

LM-DESIGN has a grout line width of 1,8 mm and the grout colour varies between white and grey.

**CLICK, READY, GO!**

Fibo Kitchen Boards are easy to assemble. Our innovative wall system is 100% waterproof and is delivered ready to install so that you save both time and money.

**DESIGNS THAT MEET YOUR NEEDS**

Our decors are timeless and independent of shifting trends. The surface is easy to clean – optimal for all areas subject to a lot of wear.

# Kitchen Board

**GOOD FOR YOU AND YOUR SURROUNDINGS**

Our products are made of certified and renewable wood, with a low CO<sup>2</sup> footprint and without harmful substances.

**TIP!** Fibo Kitchen Board is a simple and smart solution that protects the wall from water splashes and frying grease when making food. The system provides seamless joints and a great transition between the panel and the countertop.

**USEFULNESS**  
The kitchen is not just a place where you cook and eat food. It is also a place for digital meetings, homework, socializing and free time.

**CLOSER TO NATURE**  
We create solutions for a sustainable lifestyle. Not only for ourselves, but also for nature and the people around us.

**SOLID**  
Fibo Kitchen Board has a thickness of 11 mm and the plywood core hides any irregularities in the rear wall, giving a beautiful result.

# Marble

Fibo Kitchen Board 3487 HG BRIGHT MARBLE M10

## TIMELESS IN AN INSTANT

Fibo Kitchen Board is the fastest way to renovate and give the kitchen a personal touch. We offer a wide range of easy-care and maintenance-free panel. Fibo Kitchen Board is mounted directly on studs or the existing back wall. Follow the installation instructions that come with the product or on fibosystem.com, and you are guaranteed a great result in no time at all!

2272 S  
BLACK MARBLE

2273 S  
WHITE MARBLE

2276 S GOLDEN  
BROWN MARBLE

## TIMELESS CLASSICS

Marble designs consistently stand the test of time and rarely go out of fashion. We have three marbles to match all kitchen designs. Black Marble is perfect if you are aiming for an edgy, contemporary look. White Marble is light and airy and offers a subtle touch of grace. Golden Brown Marble is perfect for creating a calm and cosy atmosphere.

Fibo Kitchen Board 2276 S GOLDEN BROWN MARBLE KM00

Fibo Kitchen Board 2272 S BLACK MARBLE KM00

**TIP!** Full length panels are perfect for spaces where you do not have any cabinets. Choose Fibo for style and protect your kitchen wall at the same time.

# Metal

A Kitchen Board with a metallic surface can be scratched more easily.

RENEW YOUR KITCHEN IN ONE-TWO-THREE

**METAL SURFACES CREATE A UNIQUE LOOK AND FEEL**  
Create a modern look and feel with a shining metal decor in brushed gold, copper, or steel. Combined with earthy coloured details and elements from nature, you get a tough looking kitchen that really stands out.

# Minerals

**STONE TEXTURE  
AND NORDIC NATURE**  
Bring nature indoors! Choose a mineral decor and give your kitchen that natural feel. Choose between a crushed stone Terasso effect, or Sahara for something a little more fine-grained.

# Monochrome

\* If the stove emits heat higher than 80° towards the rear wall, a heat-protective plate must be mounted in front of the Fibo Kitchen Board. Kitchen Board is wood-based and meets fire class D-s1,d0.

**Note!** If the stove emits heat higher than 80° towards the wall behind it, a heat-protective disc must be mounted in front of the Fibo Kitchen Board. Our product is wood-based and meets fire class D-s1,d0.

The colors in the collection overview may deviate slightly from the color of the product itself.  
\* Kitchen Board with a metallic surface can be scratched more easily and should not be used in showers.

# A Simple and Complete Solution

Fibo's wall system is 100% waterproof and has all necessary approvals for wet rooms. The system is supplied as a complete set of accessory products and profiles, which simplifies installation and ensures a perfect result.

## THE RIGHT TOOL IS HALF THE JOB

Installation accessories and profiles are specially adapted and dimensioned for a waterproof and safe result.

**TIP!** Read the installation instructions carefully and watch our installation videos on [fibosystem.com](https://fibosystem.com) before you start work.

## SELECT THE CORRECT PROFILES

## INSTALLATION ACCESSORIES

**REMEMBER!** To ensure a waterproof surface and an approved bathroom, the installation must always be carried out in accordance with the installation instructions in force at any given time.

## Kitchen Board

## Wall Panel

## Extra Long Panel

## ANTIBACTERIAL PROPERTIES

All Fibo wall panels now come with a documented antibacterial effect. Our panel surfaces contain no harmful substances, require no special maintenance, and are tested according to the ISO 22196 standard - this means that it is virtually impossible (99.99%) for E. coli and Staphylococcus bacteria to survive. The certification covers all our panel decors, both with and without design patterns.

## PANEL SIZES

2400 mm panel height allow for a rapid, easy installation of a whole wall from floor to ceiling. Certain decors are also found in 3020 mm length for rooms with extra high ceilings. We also offer a broad selection of decors in 920 mm wide panels, with no tile effect, in addition to a 320 mm wide accent panel.

Kitchen Boards are panels 580 mm in height, adapted to the splash zone between the kitchen counter and cupboards. The panels protect the wall from water or food preparation splashes.

## WORLD CLASS WALL PANELS

Fibo wall panel has a plywood core made from PEFC certified wood types. The boards are pressed together and covered with high-pressure laminate so that there is a membrane in front. You thus get a 100% waterproof, environmentally friendly design wall adapted to your needs.

Design approval: D21569 No.00 + US.00.  
Patent approval: P24306 No.00 + US.00 + EP.00.

## FIBO AQUALOCK: 100% WATERPROOF

Our Aqualock click lock makes the Fibo wall system the perfect choice for both renovation and new constructions. The unique wall system provides a 100% waterproof surface, simplifies installation, and makes the joints virtually invisible. There is also no need for a moisture barrier or other type of waterproof membrane behind the panels.

# Walls built for life

*The UNs Sustainable Development Goals (SDGs) provide a shared blueprint for peace and prosperity for people and planet, now and into the future. Fibo is guided by eight of the UN's SDGs which affects everything we do. From the raw materials we choose, to our manufacturing processes and even the transport firms we use to distribute our wall panels. Read more on [fibosystem.com](https://fibosystem.com).*

## SUSTAINABILITY

Fibo is a responsible company committed to sustainability. Our raw materials come certified renewable wood, and we take special responsibility for making products that last. All our materials are fully traceable, and we publish our Environmental, Social and Governance (ESG) report annually so you can follow our progress.

## ENVIRONMENT

We continuously strive to reduce our environmental impact. We have reduced energy consumption during manufacturing, halved the amount of plastic used in packaging and reduced wastage in production. Our factory has the highest environmental standards and is certified according to ISO 14001:2015.

The building and construction industry accounts for almost 40% of global CO<sup>2</sup> emissions. Our wall panel products have a lower carbon footprint than most tiles. Reduce your building's CO<sup>2</sup> emissions. Choose Fibo.

## QUALITY

Since 1952 we have been making wall solutions that are based on the world's strictest building standards. Our products are built to last and come with a limited lifetime warranty.
