

Vito Lacquered Veneer Panel

Vito

Advantages

- **Aesthetic Appeal:** Enhance your interiors with the Vito Panel's decorative look, capturing the timeless elegance of natural wood.
- **Ready-to-Use Surface:** Enjoy a smooth, durable surface, lacquer-finished for immediate installation and long-term enjoyment.
- **Seamless Installation:** With an innovative click system, the Vito Panel ensures a clean look by concealing screws and joints effortlessly.
- **Superior Hold:** Confidently secure your panels, thanks to their exceptional screw retention properties.
- **Sustainable Choice:** Invest in longevity and eco-friendliness with this sustainably-sourced veneer panel designed for durability.
- **Authentic Material:** Each panel boasts a genuine plywood core with a high-quality veneer top layer, offering both strength and beauty.
- **Natural Texture:** The lacquer-finished surface showcases the intricate patterns of wood grain, bringing organic sophistication to any room.
- **Direct Mounting:** Simplify your project with panels that attach directly to studs, eliminating the need for additional backing.

Areas of use

Vito Lacquered Veneer Panel is a high-quality building material crafted for indoor spaces in need of a sophisticated look. Designed for dry-area walls, this product offers a seamless natural wood appearance. With its concealed fastening system, installation is straightforward, ensuring a clean and uninterrupted finish that complements any interior design.

The Vito Lacquered Veneer Panel can be used in all dry room areas. Examples include:

- Living room
- Hallway
- Bedroom
- Dining room
- Office spaces

Facts

The Vito Lacquered Veneer Panel consists of 7 layers of birch veneer with an 8th decorative layer of lacquered birch or oak veneer. The back is a thin paper layer for balancing to maintain a flat and strong wall plate

- **Measurements:** 10 (D) x 600 (W) x 2400/2720/3020 (L) mm
- **Application Area:** Dry rooms
- **Fire classification:** D-s1-d0
- **Recommended additional products:** We recommend the use of Fibo Screws (article no. 810006/810007/810011) to ensure a guaranteed fit in the invisible locking system
- **Lead time:** 6-8 weeks
