

Vito Lacquered Veneer Panel: Where elegance meets durability

THE NATURAL WOOD APPEARANCE

Discover a premium building material crafted to offer a seamless natural wood appearance. With its hidden fastening system, the panel ensures a clean and uninterrupted finish, enhancing any interior design.

This panel stands out for its aesthetic appeal, bringing timeless elegance with the look of natural wood. The ready-to-use surface is smooth and durable, lacquer-finished for easy installation and long-term enjoyment.

The Vito Lacquered Veneer Panel features an innovative click system that ensures a clean look by effortlessly concealing screws and joints. It's a sustainable choice, made from sustainably sourced materials designed for longevity and eco-friendliness. Each panel boasts a genuine plywood core with a high-quality veneer top layer, offering both strength and beauty.

Simplify your project with panels that attach directly to studs, eliminating the need for additional backing, and no need for post-treatment.

WHY CHOOSE VITO LACQUERED VENEER

- For the best installation experience, use Fibo Screws to ensure a guaranteed fit with the invisible locking system.
- Staples (min. 10x35mm) can be used if the above is not preferred.
