

Vito Just Paint: For painting or wallpapering

PERFECT FOR BOTH RENOVATION AND NEW CONSTRUCTION

Vito Just Paint wall panels are made of HDF (High-Density Fiberboard), specifically designed for painting or wallpapering—without the need for drywall. Featuring a unique click system, these panels are installed quickly and easily, creating smooth walls ready for paint or wallpaper—it's that simple!

EASY INSTALLATION WITH CLICK-LOCK SYSTEM

Vito Just Paint panels are suitable for all dry indoor spaces, from living rooms to bedrooms, where you need a surface ready for painting or wallpapering.

- Ideal for both renovations and new constructions, making it easy to repair wall damage, build new walls, or change color quickly.
- Fast installation with a click-lock system – install the panels directly onto studs or over existing walls like drywall or particleboard using staples, adhesive, or both.
- Strong screw-holding capacity and moisture resistance ensure long-lasting durability.
- Made from sustainable materials for an eco-friendly choice.

THE BEST INSTALLATION EXPERIENCE

- **Click-lock system** ensures secure installation with minimal visible joints.
- **Durability:** Strong and screw-resistant, suitable for various wall applications.
- **Prepped for painting** – No drywall or extensive prep work needed – just paint or wallpaper directly onto the panels.

Vito Just Paint

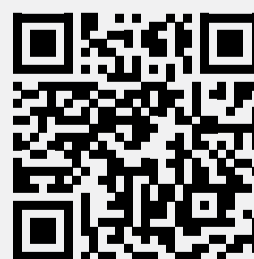

– The hassle-free solution for smooth, paint-ready walls!
